## Military Service Act

Men Coming Within Class 1 Must Register or Subject Themselves to Heavy Penalties.

Enquiries made here in Bow Island reveal the fact that the requirements of the Military Service Act have not as yet been attended to with as much despatch as they ought.

Last week's Review contained a copy of the proclamation which calls upon all men coming under Class 1 according to the Military Service Act, to report for military duty on or before November 10th. This gives nearly a month for all unmarried men between the age of 20 and 34 and all widowers without children, of the same ages, to go to their post office and secure either a form which they fill in reporting for service, or one on which they can make a claim for exemption according to the provisions of the Act. The issuance of the proclamation makes all men of Class 1 members of the army and subject to its discipline. Failure to report as directed in the proclamation makes a man liable to a term of imprisonment with hard labor for a period of not over five years, and he shall moreover if the authorities so decide, be compelled to serve in the army.

Local tribunals have been appointed to sit at various places in every riding, who will consider all claims for exemption and medical boards will sit at various places to examine men as to their physical fitness for military duty. All examinations and claims for exemption by the boards must be made by November 10th. On December 10th the men who have been notified by Mr. J. M. Carson, of Calgary, the registrar for Alberta, that they will be required for Military Service must report at the place designated in such notification from Mr. Carson's office. Failure to report as directed leaves a man liable to serious penalties.

It is therefore the duty of every man in Class 1 both to himself and his country to take carefully and follow the directions given in the proclamation.

All persons will be placed on active service at one time whether claiming exemption or not and the fact of delaying registration does not give you any advantage, rather a disadvantage as you would be one of the last to have your case disposed of, persons should not claim exemption on four or five of the statutory grounds, but should claim exemption only on the grounds that they conscientiously feel they are entitled to exemption.

Exemption should not be claimed when the work in which the claimant is engaged can be performed by female help or by someone not in the above class or unfit for military service.

Persons appearing before the local tribunals claiming exemption must be prepared to substantiate their claims by reliable witnesses, statutory declarations, affidavits, etc., so as no doubt exists with the tribunal, otherwise their claims may be disallowed.

Only British subjects in the above named Class 1 are all that is required to register now. Aliens need not register. This matter is now being looked into internationally at Ottawa. However, men of Military age residing in Canada and coming under Class one, may be required to show that they are Aliens. It is therefore advised that you acquaint yourself as to your exact status.

Any further information will be cheerfully furnished by Frederick W. Brown, Military Representative to Local Tribunal, No. 68, Bow Island.

### A WARNING.

Now that the Canadian Military Service Act is in force it would be best for everyone to remember that should they violate it adversely, or make statements calculated to make the working of the Act more difficult than should be, they become liable under the law to heavy penalties. Already there have been some transgressions through the west in this connection, and it is understood that the authorities will deal harshly with any who repeat the transgressions.

## DON'T MISS THE POINT!

There is a man in this part of the world who represents, in our way of thinking, a pretty good average of human nature. Whenever the preacher in his church delivers a very hot sermon against some special kind of sin, this man gets enthusiastic and goes around to the vestry to tell the preacher what a fine sermon it was. Then he goes home and repeats it to his brother, and they talk over the points and the people the sermon hit the hardest. But this particular man never sees when the sermon hits him.

Early next month the biggest public campaign ever put on in Canada will be opened to get subscriptions for the fourth Canadian War Loan, the Victory Loan. The thing people in this district must bear in mind is that the appeals are directed to each and everyone of them. It is not merely the well-off men and women who are being asked to invest. It is everybody. The little sermons which will be "preached" in the "Review" should not be taken as hints to the well-to-do people only. Every man and woman should watch for these advertisements and start now to gather up the necessary money to buy either a fifty or a hundred or a five hundred or a thousand dollar bond. In the United States there were about 4 subscribers to the first American Loan out of every hundred persons. They only received 34 per cent. In Canada for the last war loan there were only about 41,000 subscribers or say 4 in every 700. Yet in Canada the interest was sugar-bugs—on the Victory Bonds that will probably be issued to yield about 5 per cent.

The first thing anyone should do, in our opinion, is to get rid of the idea that there is any sacrifice involved in investing in the loan. It is true that the patriotic spirit is appealed to and it is equally true that a great and generous response is expected on that ground. But the new war loan is a straightaway business proposition: sale, profitable and convenient. Every man and every woman with as much as fifty dollars to spare should own one of these new bonds, and not only that, but should help to show others the worth of these bonds by recommending them everywhere. The readers of this paper are among the most trustworthy, prosperous and public spirited in the Dominion. When the subscriptions to the Victory Loan are added up from the various districts and sub-districts we expect them to show that this part of the great Dominion has been true to its traditions and just to its opportunities.

In order to eliminate the waste in packages and the increase in cost to the consumer involved in the trade in small packages of breakfast foods, cereals and cereal products, an order-in-council has been passed upon the recommendation of the food controller, prohibiting the sale, after a specified date, unless licensed, of such foods in original packages of less weight than 20 pounds. In special cases the food controller may license the sale in smaller packages if necessary in the interest of the public. Manufacturers and wholesale dealers are given until Nov. 1 to dispose of their stock.

## The Bow Island Review

W. P. COTTON, Proprietor and Publisher

PUBLISHED EVERY FRIDAY AT — BOW ISLAND, ALBERTA

The stand taken by Mr. W. A. Buchanan, Member for this constituency in the Dominion House at Ottawa, in connection with the Military Service Act, is already, we believe, known to our readers. His courageous act in supporting this government measure and the broad-minded spirit which he displayed in addressing the House in connection with its enforcement won for him the admiration of Liberal and Conservative alike. So much so that it is very doubtful if he will have any opposition when the time comes for him to go before the electors. Indeed, we believe that any attempt to contest this seat with him is foredoomed to failure.

Now that the Union Government at Ottawa is an accomplished fact, partyism, at any rate until after the war, must be put aside and our efforts concentrated on winning the war. Consequently, we fail to see the necessity of contesting a seat where the existing member has already declared his intentions of supporting those measures which brought about the present coalition.

Mr. Buchanan has deserved well of his constituency, and it is our opinion that the electors cannot do better than to show their appreciation by returning him unopposed.

If there should be a contest in this constituency, what little assistance the Review can offer will be gladly placed at the service of our sitting member.

"People tell me I have turned my political coat. I have not turned my political coat; I have taken it off altogether, and I intend to keep it off till after the war."—Hugh Guthrie. We venture the opinion that many political candidates will be shed in the next election. The formation of the Union government has shown us that in face of a common danger partyism can be eliminated to a very large extent, and where the leaders of the different parties find a basis for a common understanding there is no reason why the rank and file should not follow suit.

There will shortly be given to the people of Alberta, in common with the rest of the Dominion, an opportunity of subscribing to what will be known as "The Victory Loan." The sum of \$150,000,000 is needed to meet Canada's pressing requirements and this amount it is hoped will be raised from the people of this country.

Every man, woman and child will be asked to subscribe, and no matter how small the amount may be, every dollar subscribed will help to make the success of the loan more certain.

In addition to securing five and a half per cent. interest, which the government offers to subscribers of this loan, there will also be an additional inducement in the fact that most of this money will return to our prairie provinces in the purchase of food supplies.

Canada needs this money to finance Great Britain's food requirements, who furnishes us at the present time with the only market open. Great Britain needs our wheat, and because she needs it badly is paying an increased price.

From a strictly business standpoint the loan is a good investment, because it is absolutely gilt-edged. From a patriotic point of view it is the duty of us all to give it every support and encouragement.

## Exemption Tribunals.

Exemption Boards have been chosen in such a way as to make them absolutely independent and removed from all influence. There are now in Canada, one appointed by the county judge in the district concerned and one selected by a joint committee of Parliament. Being familiar with local conditions where they sit, the members are well-qualified to appreciate each reason for exemption as are put before them by men called up.

Exemption will be granted to those who can establish that it is in the national interest that they remain in civilian life. This is for the Exemption Board to decide after having received full information in each case.

The grounds on which exemption may be claimed (which are similar to the grounds recognized in Great Britain and the United States) are as follows:—

- (a) That it is essential in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (b) That it is essential in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications.
- (c) That it is expedient in the national interest that, instead of being employed in Military Service, he should continue to be educated or trained for any work for which he is then being educated and trained.
- (d) That he has been or would become if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position.
- (e) Ill health or infirmity.
- (f) That he is exceptionally eligible to the undertaking of contract service and is published from doing so by laws and orders of Parliament, in effect on the 24th day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he is in good faith belonging.
- (g) That he should be exempt because he is a member of a party to be made a party to, any Claim for Exemption unless thoroughly satisfied that it is made in good faith.

Exemption may be applied for by the man selected themselves or by their parents, next relatives or employers. Applications for exemption must be made on printed forms to be found at every post office, which are to be filled in and left with the postmaster if exemption is desired. The postmaster will forward the form to a Registrar, who will send it to the appropriate Exemption Board. In due time, then, the Applicant will get notice as to when he must present his case before the Board.

Issued by The Military Service Council.

## Western Poetry. Promise for Future Good.

A new volume entitled "Kitchen and other poems," by Mr. Robert Stead of Calgary, has recently been published in book form. To westerners especially it will be of absorbing interest, the poems dealing with life on the plains, the homesteader, the hardships undertaken by the pioneer, it takes up incidents that have occurred in the work of the R.N.W.M.P., it even singles out the "school marion" in her little school upon the lonely prairie and pays a just tribute to her unselfish devotion. The departing soldier is pictured and described in a poem entitled "Why don't they cheer?" a poem that brings again to the mind the units of our first overseas contingent, and in "He drops in Flanders," Mr. Stead stirs the heart of the reader and inspires him to realize the life and struggles of those who answered the "call" and who indeed "Step in Flanders." To the poetical mind the book will appeal strongly, and the practical nature will find many of the poems most refreshing. The book should find a place in every school. Debating societies will find it to be a valuable acquisition to their library. Indeed, wherever the book finds lodgment there we predict for it an eager coterie of readers. The book is for sale by the Mueson Book Co. of Toronto, and is published at one dollar.

The Free Press, Ottawa correspondent says: "The great question of improving the Canadian wheat crop, under present conditions of exchange, will be one of the problems which the new union government will have to work out in detail. The fixing of the

Ottawa, Oct. 24.—Announcement that the Imperial Munitions Board will spend money liberally in Canada for the winter munitions contracts is welcomed here as an assurance of industrial prosperity during the winter months. It also means that the total amount spent on munitions in Canada to the end of the year will be an imposing sum, just how large it is difficult to estimate at the moment. Consideration of this question brings up the point that Canada has been unusually fortunate in the matter of obtaining contracts for war material, all kinds of which have been exported since war began. One of the features of Canada's participation in the war has been the prosperous business it has brought the country. The adoption by Canada of the Military Service Act has vastly increased the national prestige as a belligerent on the side of the allies and has assured the country of continued prosperity through war activities of a business nature. C-13.

price of wheat at \$2.21 per bushel and the elimination of the speculation in the trade has created a situation whereby some government assistance or the entering into a contract by which the buyers may be insured against loss is necessary. To finance the crop about \$300,000,000 is immediately necessary. Banks have advanced \$800,000,000. It is now suggested that the farmers be requested to take in payment for their wheat part cash and part government bonds.

## Sunday School Institute.

The Sunday School Institute held under the auspices of the Presbyterian and Methodist Sunday School Departments in the United Church on Monday last was a great success. In spite of extremely cold and stormy weather a goodly company gathered, both at the afternoon and evening sessions, and a lively interest was manifested in the progressive methods and standards indicated by the speakers. The program was conducted entirely by the official representatives, Rev. A. W. Myers, Ph.D., of the Presbyterian Church, and Rev. J. P. Westman, of the Methodist Church. Dr. Myers dealt with the value of the graded lesson, particularly for the primary and junior departments—the importance of understanding child psychology and the necessity of adequately trained teachers. The thought was emphasized that religious education must be conducted with the same efficiency and intelligence as is secular education. Mr. Westman dealt largely with the Canadian standard efficiency test for boys. The programme which this standard involves, he asserted, was the best which had yet been thought out, providing for all sides of the boys' nature—intellectual, physical, religious and social.

A good number of boys were present, and out of them, Hon. Mr. Williams, was charted according to the Canadian standard and made a very creditable showing.

As a result of the Institute a number of boys are going to the Boys' Convention at Lethbridge on November 8th-10th. An effort will be made to meet a long-felt need in providing a boys' organization with suitable quarters in Bow Island, and a teacher training class will be started in connection with the United Church.

**McLAUGHLIN  
VALVE-IN-HEAD MOTOR**  
There are three types of motors used in motor cars:

- 1st. Motors having valves in the head or directly over the piston ends as in the McLaughlin motor.
- 2nd. Motors with valves in a side chamber called an "L" head motor.
- 3rd. Motors with one valve in each of two side chambers called a "T" head motor.

The advantage of the valve-in-head motor is that it is fully recognized. It has no valve covers. It has less water-jacketed space than any other type of motor. It clears itself quickly and completely of dead gases after each power stroke. It is the most efficient and powerful of gasoline motors.

The number of miles per gallon is an important item always—and especially when the cost is high.

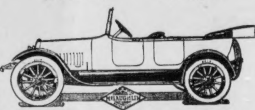

Owners of McLaughlin cars get the greatest gasoline mileage due to the valve-in-head principle of motor construction.

Many owners of our D-4-35 get as high as 25 miles per gallon, and owners of D-6-45 model frequently get 22.

This reduces the motoring cost to Canadians who buy Canada's Standard Car.

But I feel that I am not up-to-date in the art of running Hell.

The books in the Calgary public schools cost the people a little less than 12 cents per pupil. That is the record for the present year and the lowest since the board undertook to provide free text books to the chil-

dren in the public schools. The total expenditure for school books for the year is \$802.55. The expenditure for last year was \$2,350. The decrease is due to the preservation of the books by the school board. In this way the books which lasted usually but one year, now are cleaned, repaired and fumigated, and last for three or four years. In previous years the books cost the parents many thousands dollars every year.

## Complete Service to Ford Owners Everywhere

COURTEOUS attention to your needs wherever you may travel is something you appreciate, and being a Ford owner you can get it. You are always "among friends".

There are more than 700 Ford Dealer Service Stations throughout Canada. These are always within easy reach of Ford owners—for gasoline, oil, tires, repairs, accessories, expert advice or motor adjustments.

The cost of Ford Service is as remarkably low as the cost of the car itself. Nineteen of the most called for parts cost only \$5.40. Just compare this with the cost of spare parts for other cars and you will realize the advantage of owning a Ford.

## Announcement.

Owing to the increasing inroads made in our Driving  
Harness business, by the use of Automobiles by our cus-  
tomers, we have decided to discontinue carrying the  
better grades of Driving Harness, and to replace it with  
an up-to-date line of Auto Accessories. And we would  
ask our old customers for a share of their patronage.  
We will carry the best and the prices will be reasonable.  
We will still keep a full line of Work Harness

A very delightful children's birthday  
party was given at the residence of  
Mrs. A. W. Fuller on Saturday after-  
noon last, when little Anna Ludke  
proved a charming little hostess to  
a large number of her juvenile friends.

R. O. Connor's auction sale on Wed-  
nesday went off exceedingly well,  
some good prices being realized. One  
mare was sold to Tom Cooper for  
\$201.00, and a team going to Mr. Jor-  
dan for a sum close to \$500.00.

Frank Beattie, E. H. Wilmet and  
several others from this town spent  
a day or two in Lethbridge this week  
waiting to be examined by the medi-  
cal board under the Military Service  
Act. Unfortunately owing to new  
arrangements disarranging their plans  
the medical board were unable to be  
there at the time advertised, and con-  
sequently the men had to return.

From the territory between Bow Is-  
land and Lethbridge there were 134  
applicants waiting on Tuesday.

Mr. Davis has bought some lots  
north of St. Michael's church and has  
put up a small home there with the  
intention of making a considerable  
addition in the spring. Mr. Sanders  
is another recent arrival on the south  
side and is building east of the church.

Mrs. C. Fowler, who has been away  
visiting friends, returned home last  
Saturday night. Her husband, who  
has been ill for the greater part of the  
summer, left on Tuesday night for  
Vancouver, and will probably stay  
there for a time to see if the change  
will be of any benefit to him.

R. Vogwill, formerly of the Union  
Bank here, has been the guest during  
the past week of Mr. and Mrs. B. T.

Whitney at the river. Mr. Vogwill  
has just recently joined the Army  
Medical Corps at Calgary and expects  
to leave for overseas with a contin-  
gent very shortly.

There was not very much business  
done at the Town Council meeting  
last week, and therefore no report is  
forthcoming. One letter, however,  
was received from a person in Sas-  
katchewan with reference to establish-  
ing a flour mill in Bow Island, and  
this (the letter, that is) was handed  
over to the Board of Trade. Another  
matter that came up was with refer-  
ence to the speed made by automobiles  
in Bow Island. One member suggested  
tying a rope across the bottom of  
Main Street, but this was not acted  
upon.
